

DBB - Class A, tall form, glass

1 | Graduated measuring cylinders are an essential instrument in the daily lab work for the preparation of solutions or the measurement of any type of liquid.

2 | Endo Glassware presents a complete range of tall form graduated measuring cylinders class A and B made of borosilicate glass; they are

available with spout or with standard PP stopper.

3 | All of them present an hexagonal base for a higher stability and have been calibrated at 20°C to contain (In); they are made according to ISO 4788.
